Kune - Defect #195
Permissions problem in group-space with shared docs

02/28/2012 10:56 AM - Anonymous

Status:	New	**Start date:**	
Priority:	High	**Due date:**	
Assignee:	Vicente J. Ruiz Jurado	**% Done:**	0%
Category:	Group space	**Estimated time:**	0.00 hour
Target version:			
Resolution:		**Tags:**	

Description

Sequence:

- I create a new doc in my personal space
- I invite Rana to my doc (through (+) button)
- I edit it
- Rana can see and edit it from her user-space, normally
- Rana can see but NOT edit it from her group-space. No "Edit" button appears. She sees the content but cannot edit it.

Probably she has view permissions but not edit permissions...
