

## Kune - Defect #570

### blip link redirects to a kune "Wave in a Box" login page

12/17/2013 03:27 PM - senrof21 -

<b>Status:</b>	New	<b>Start date:</b>	12/17/2013
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Tags:</b>	
<b>Resolution:</b>			
<b>Description</b>			
the links obtained from "link this blip" url redirect to a Wave in a Box kune login page			
<b>How to reproduce Issue</b>			
<ul style="list-style-type: none"><li>- In a Document/wave in wich you are editor, click the "link" button from a blip toolbar. Copy the url bellow "link this blip" text. (blip link example: <a href="http://kune.cc/waveref/kune.cc/w+1e7kzds0z0dfiC/~-/conv+root/b+bplto4DvsKA">http://kune.cc/waveref/kune.cc/w+1e7kzds0z0dfiC/~-/conv+root/b+bplto4DvsKA</a>)</li><li>- Sign out</li><li>- Paste the copied link in a web browser</li></ul>			
<b>What happens</b>			
1. The browser redirects you to a kune "Wave in a Box" login (see attached image) that: <ul style="list-style-type: none"><li>- <i>does not allow to register new users</i></li><li>- <i>allows to login with already existing kune users</i></li></ul>			
2. After login in the "wave in a box" page, it redirects you to kune login			
<b>What I expect</b>			
The browser redirects to the kune login page			
<b>Other ¿useful? information</b>			
After login in "wave in a box" kune server with existing kune user, the link redirects you to kune login. (to logout from wave in a box kune server you have to login in kune and sign out)			

## History

#1 - 03/27/2014 01:10 PM - Lorenzo Moreno

Today it appears fixed with broken links (as above):

The link above as register user shows "Problem loading this message." But as anonymous user redirects to register page:

[http://kune.cc/?locale=es#!signin\(kune.cc/w+1e7kzds0z0dfiC/~-/conv+root/b+bplto4DvsKA](http://kune.cc/?locale=es#!signin(kune.cc/w+1e7kzds0z0dfiC/~-/conv+root/b+bplto4DvsKA))

In addition,

Trying with an existing link: <http://kune.cc/waveref/kune.cc/w+1qy2v9jzko461KW/~-/conv+root/b+1muqc95s12m5IKX>

It redirects (as anonymous user) to a signing page: <http://kune.cc/auth/signin?r=#kune.cc/w+1qy2v9jzko461KW/~-/conv+root/b+1muqc95s12m5IKX>

Signin page <http://kune.cc/auth/signin> must redirect to [http://kune.cc/#!signin\(&lt;HERE](http://kune.cc/#!signin(&lt;HERE) BLIP LINK>)
